

StuManage

Time management and other utilities for students packaged into one.

Primary features

1. Keep track of assignments and other deadlines
2. Monitor tasks and keep appropriate timers
3. Desktop notifications even if Windows Focus Mode is turned on
4. Quick search in popular websites for students
5. Quick links to open other useful tools/software
6. Sync primary task between devices
7. Personalise the appearance of the desktop app
8. Open email in one click
9. Search for music right from the app to keep you company while studying
10. Sleek, beautiful UI which is customisable even further

Pre-requisites

Android

- Version 9 or above

- Minimum 25MB of storage space and 2GB of RAM

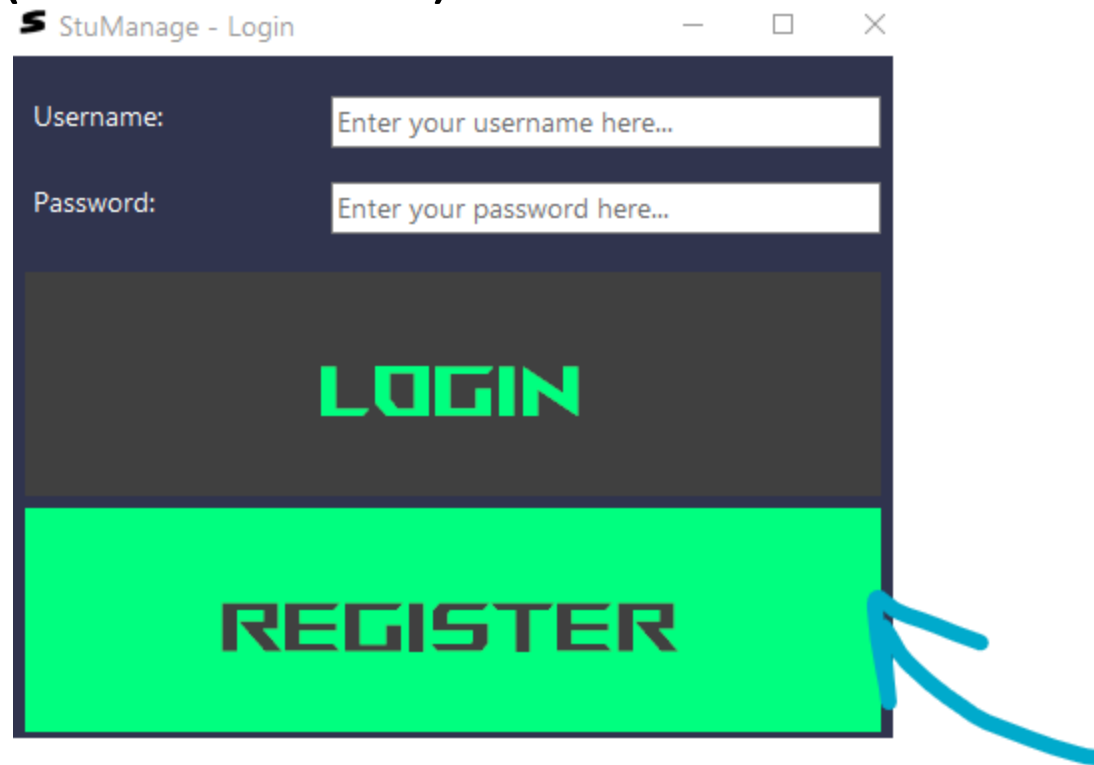

Windows

- Windows 10 ONLY

- Minimum 50MB of storage space and 256MB of RAM

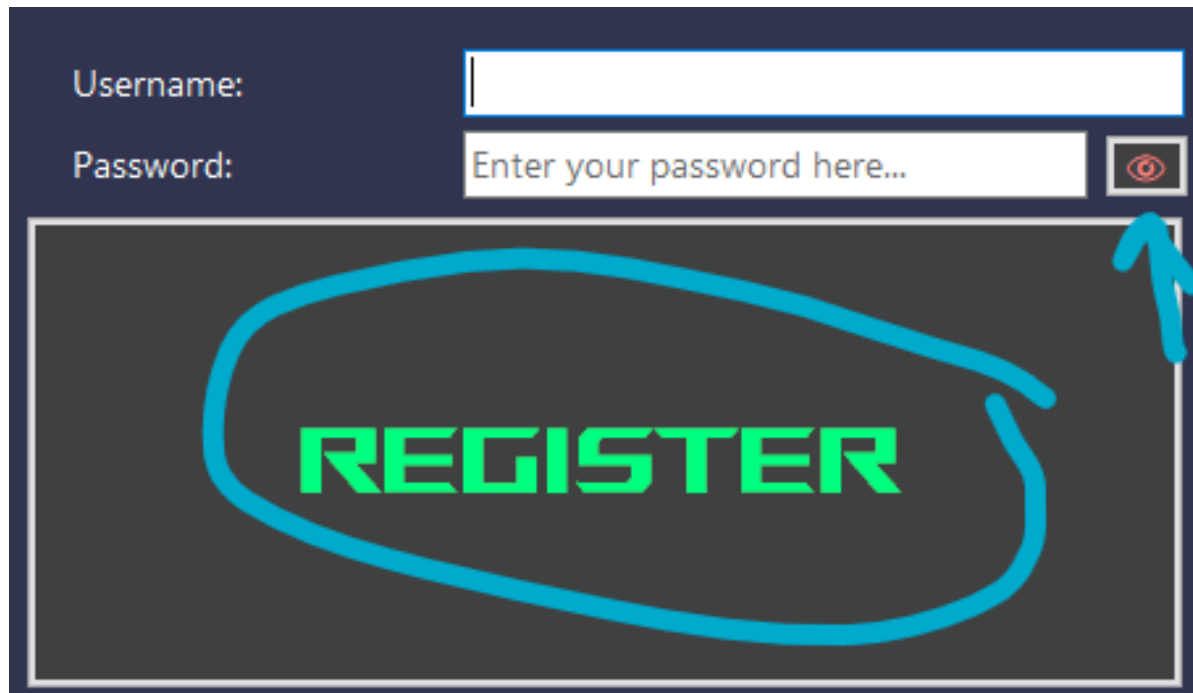

Desktop Client – Instructions

1. Launch the application
2. Click on register (for new users)

Desktop Client - Instructions

3. Fill out the registration form (new users only)

The image shows a registration form with a dark blue header and a dark grey body. The header contains two labels: 'Username:' and 'Password:'. The 'Username:' label is followed by a white text input field. The 'Password:' label is followed by a white text input field containing the placeholder text 'Enter your password here...'. To the right of the password input field is a small square button with a red eye icon. Below the input fields is a large dark grey rectangular area containing the word 'REGISTER' in large, bold, green capital letters. A thick blue oval is drawn around the 'REGISTER' button. A blue arrow points from the right side of the 'REGISTER' button towards the red eye icon.

You can click the eye icon
to view password

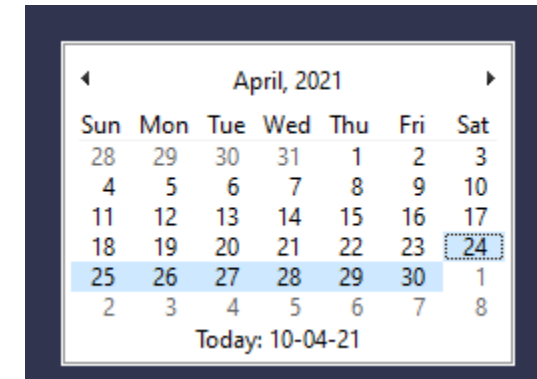

4. Click register

Desktop Client - Instructions

5. Once registration is done, click OK in the dialog box and proceed to enter your credentials in the Login Page.

6. Now click on “Login” to access the Dashboard

7. On the top left there is a standard calendar

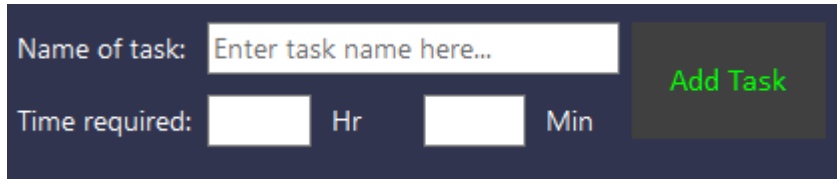

8. Below this, you can find a grey box with two buttons towards the bottom. Click the green button to add a new task to your list

Desktop Client – Instructions

9. Fill out the fields in the popup that appears to the left of this green button (It is not mandatory to fill out all fields)

A dark-themed popup form for adding a task. It contains two input fields: "Name of task:" with a placeholder "Enter task name here..." and "Time required:" with sub-fields for "Hr" and "Min". A green "Add Task" button is positioned to the right of the input fields.

10. Once you have filled, you can click on the “Add Task” button. This will add the new task to your list of tasks. This list is displayed immediately above these buttons.

11. To delete a task, click the task to check it. Now hit the red button on the bottom.

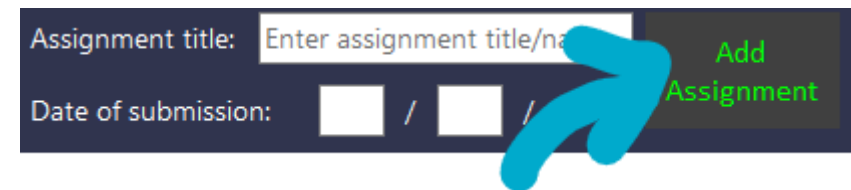

Desktop Client - Instructions

12. Right below this list of tasks is the list of assignments. To add a new assignment, click the green button at the bottom of this box.

13. Once that is done, you can fill out the fields provided to the left of this button. After that click the “Add Assignment” button.

A screenshot of the form for adding a new assignment. It has a dark background. The first row is 'Assignment title:' followed by a text input field containing 'Enter assignment title/name' and a green 'Add Assignment' button. The second row is 'Date of submission:' followed by two date input fields separated by a slash. A large blue arrow points from the text input field to the 'Add Assignment' button.

This will add a new assignment to your list of assignments.

Desktop Client - Instructions

14. Unlike tasks, assignments are long term, hence these are stored locally. To save the list of assignments you have (checked or unchecked), press the yellow button at the bottom.

By doing this, all the assignments in the list are saved to your hard drive in the same state (checked or unchecked)

15. To open assignments saved in the previous session, click the orange button to the bottom. This will load previously saved assignments.

16. To delete an assignment, check the box to its left and click the red button.

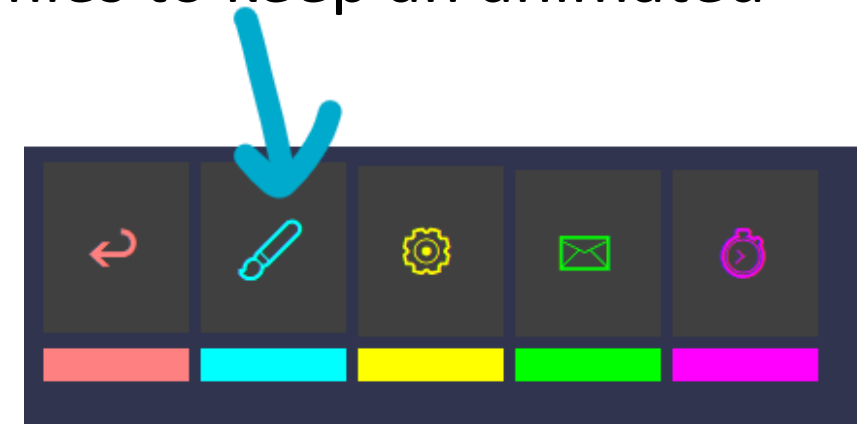

Desktop Client - Instructions

17. Below these buttons, there are five large buttons with distinct colour and symbols. To go back to the login screen, click the back arrow button.

18. To change the background Image of the dashboard click the blue paint brush

Button. Now you will be presented with windows file explorer. Choose your file and click “OK”. You can also add .gif files to keep an animated background.

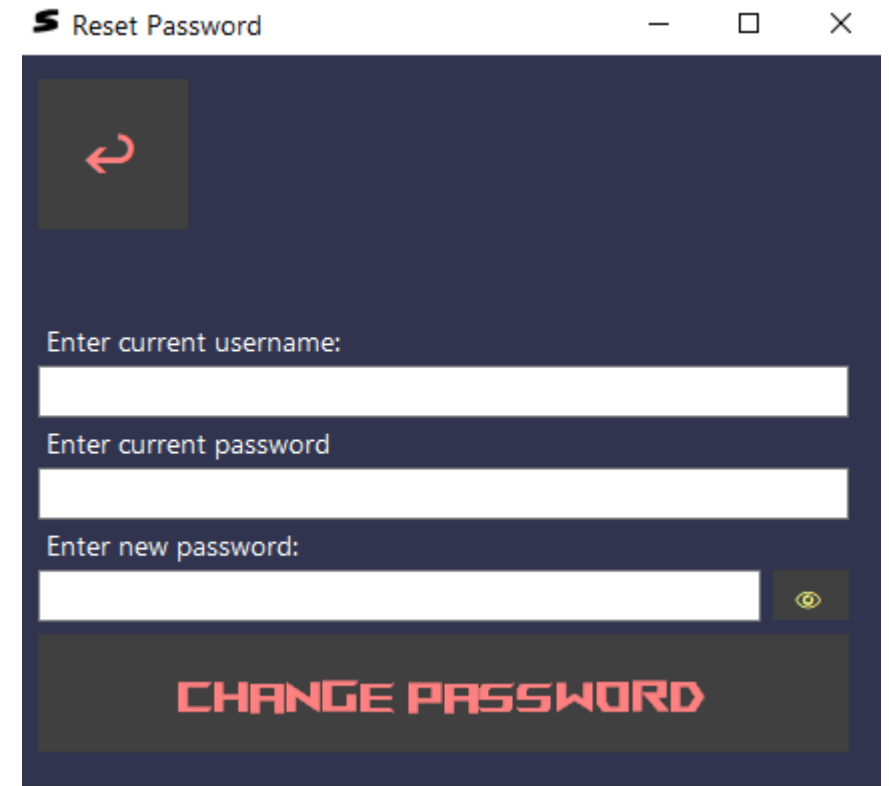

Desktop Client - Instructions

18. To change your registered password, click the gear icon.

Fill out the given form and click “change password”. You can click the “eye” icon to view your new password.

once your password is changed, you can close this window by hitting X on the top right or by clicking the “back” button on the top left.

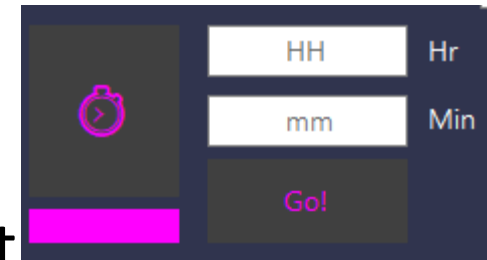

The screenshot shows a window titled "Reset Password" with standard window controls (minimize, maximize, close) in the top right corner. In the top left corner of the window's content area, there is a dark square button with a red curved arrow pointing left, representing a "back" function. The main area of the window contains three text input fields. The first field is labeled "Enter current username:" and is empty. The second field is labeled "Enter current password" and is empty. The third field is labeled "Enter new password:" and is also empty; to its right is a small yellow icon of an eye, which is used to toggle password visibility. At the bottom of the window, there is a large, dark rectangular button with the text "CHANGE PASSWORD" in red, bold, uppercase letters.

Desktop Client - Instructions

19. To quickly open your default Gmail email, click the email button which is right next to the reset password button.

20. To start a new timer, click the timer button which is last in this series of buttons. In the popup form that appears, the details of the timer in the appropriate fields.

Once this is done, click “Go!” and the timer will start.

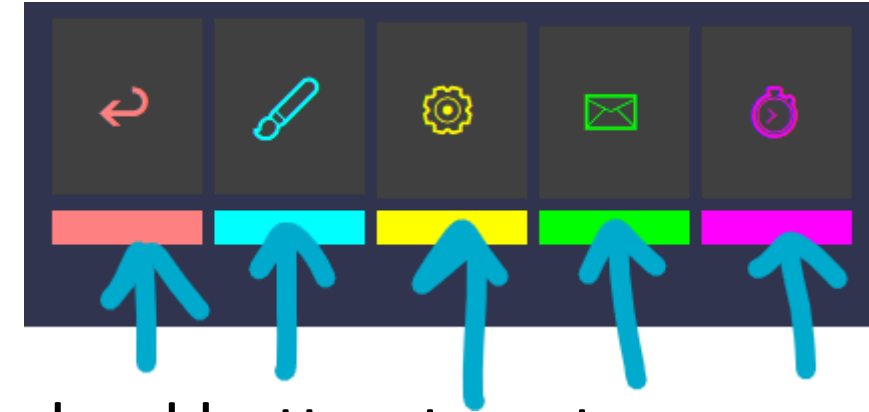

This timer gives a sound and a notification once it is completed. You can see the progress of the timer in seconds on the top centre.

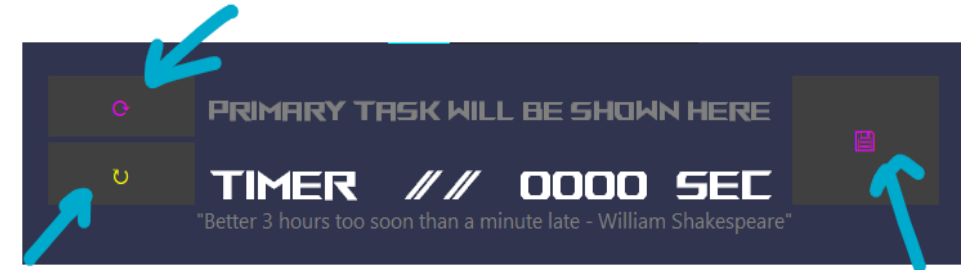

Desktop Client - Instructions

21. Below are five different colours. Each of these opens up a preloaded background image for the dashboard.

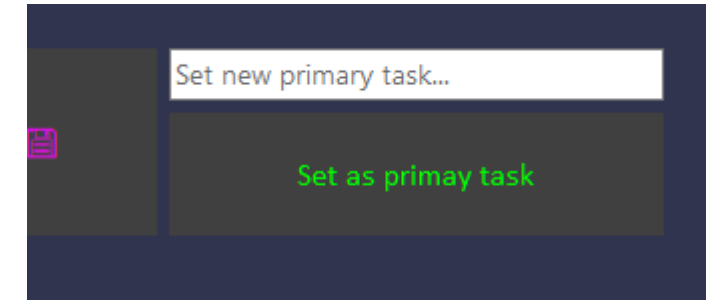

22. Moving on to the top centre, click the purple reload button to get the primary task from the cloud. By default, there is no primary task set. You can click the yellow reload button to reset the primary task in the server to NULL.

Desktop Client - Instructions

23. To set a new primary task, click the purple save button. This will open up a popup form to its right. Fill out the field and click on the “Set as Primary Task” button. This will send the entered task to the server. You can see this new task, again, by clicking the purple reload button explained previously.

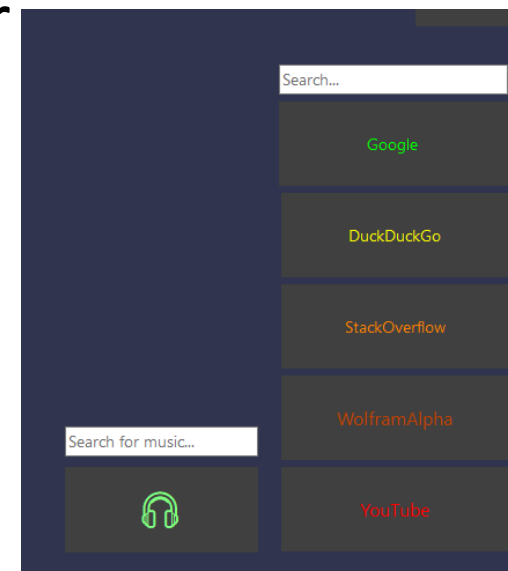

(Note: until you press the purple reload button, the primary task won't be shown)

Desktop Client - Instructions

24. To the right centre of the dashboard, there are four buttons that act as shortcuts to popular student resources. They are: windows calculator app, Udemy, Desmos Graphing Calculator and DoubtNut respectively.

25. Below this is a search box. Here you can type anything and search for it on websites given below. (you can also search for using Spotify)

26. Use the “X” on the top right to quit the app

Android Client - Instructions

1. Install the .apk file on your android device
2. Open the app, you will be presented with a login screen, if you are a new user click on the “register” button. Enter appropriate details and your account will be made. (new users only)
3. Use your login credentials and click on the airplane button to access your mobile dashboard. You can click the “eye” icon to view your password as you type.
4. To the centre bottom you see your primary task. By clicking the pencil icon to its right you can change your primary task. This primary task is synchronised across all your devices.
5. To the top right, you find the calendar icon. Click it to access the calendar
6. To its left is a timer icon. Click it to access a simple countdown timer
7. To the left of the timer is the door icon with an arrow pointing outward. Click it to sign out of your account.
8. The slider in the centre is used to track your progress of the primary task. Gradually slide it to the right as you keep completing your primary task. Once you slide it to the extreme right(implifying that the task is completed), your primary task will be reset.
9. On the bottom is an inspirational quote to keep you motivated!
